SHORTENING THE LINE.—A corps of engineers is said to be at work surveying routes with a view to the shortening of the Pennsylvania Railroad.

PROPOSED MONUMENT.—It is reported that under the direction of Governor Geary, a monument to the fallen Pennsylvania heroes of the Mexican war will soon embellish the Capitol grounds in Harrisburg.

THE Springfield *Republican* is of the opinion that we cannot do better than take from the Japanese all the tea producing Islands they will give us for as many ironclads as we can spare. Should we want ironclads at any future time we can build them.

A RAFTING EXCURSION.—A party of ladies and gentlemen, sixty or more in number, participated in a raft excursion last Thursday, from Marietta to Port Deposit, on the Susquehanna. Their craft was a timber raft, two hundred and thirty-seven feet in length, on which was erected a large cabin, fitted up in splendid style.

ELI LEWIS, an old citizen of York, died in that borough on Sunday last. He was President of the First National Bank of York, and several years ago edited the *Recorder*, published in that borough, and at one time was connected with the *Baltimore Patriot*. Deceased was a brother of Hon. Ellis Lewis, ex-Chief Justice of the Pennsylvania Supreme Court.

THE charge of Judge Underwood to the Grand Jury in Richmond seems to us about as much out of place and inappropriate as anything could well be. As a stump speech before an uncritical far out-of-the-way audience, it would have been far more appropriate. It cannot fail to stir up a bad spirit and do more to defeat than insure justice. We regard it as an unfortunate circumstance that a better man is not in his place.

A Golden Wedding.

Fifty years ago William Dilworth and Elizabeth, his wife, embarked together on that matrimonial voyage of life which was to be to them for better, for worse, for riches, for poorer, until death should them part. Think of it, you who are yet young—half a century of association between one man and woman as husband and wife! Both are yet hale and hearty; Mrs. Dilworth, in feeling and spirit, the cheering companion of her daughters; Mr. Dilworth, able to hold his own in friendly wrestling with the most stalwart of his sons.

Pittsburgh was an infant city when William Dilworth first came to it. It was little more than a fort and struggling village. Two general stores transacted nearly all the business of the place. Fifth street was but the commencement of a line of shanties. Stone and iron buildings had not been dreamt of. Dome covered court houses and cathedral spires were unknown. What are now called Allegheny and Birmingham had to be reached by tedious lines of row-boat ferriage.

He has seen the place developed from those small beginnings into the Iron City of the West. Coming to the neighborhood in 1791, he has grown with Pittsburgh's growth and can claim to have founded one of the most influential families, by whom the prosperity of the city has been established and maintained. When England and her Indian allies ravaged the splendid territory known as the Western Reserve, Mr. Dilworth, then just of age, shouldered his musket and marched to join the American force that rallied under the command of General Harrison, at the out-post on whose site now stands the city of Sandusky. Harrison was then, old line Whig ever since, his political record has ever been clear and consistent as his private life has been pure, honorable and unblemished.

One half of a centennial epoch was accomplished yesterday, since, on the eighth day of May, 1817, he took—primitively riding by his side on horseback—to the homestead he had built upon Mount Washington, for the future partner of his joys and sorrows, Elizabeth Scott, daughter of Colonel Samuel Scott, of Ross township. In that house they have thenceforth lived, and live there still, full of years and social honor. Yesterday may be said to have been the day whereon they celebrated the great event of their mutual experience. It was the occasion of their Golden Wedding; the day of their Marriage Jubilee. There, gathering around them in their green and glorious old age, were solid citizens and comely matrons, who called them parents; vigorous men and boys, beautiful women and lovely girls, just blooming into womanhood, children of their children, and little ones, who could say "great grand mamma, may many, many happy returns of this glad day yet come to you." Eight sons and daughters, left of twelve, were present, forty-three of the off-spring of those sons and daughters, and two of a generation later still.

Friends, of course, in troops thronged to the joyous congregation. Comparatively early in the afternoon the house and grounds were crowded, and still they kept on coming till the shades of evening crept far down upon the hills. Genial, too, and pleasant as uttered words of greeting were the notes that came as reasons for unwilling absence. Some of these were gems of friendly gratulation. Gifts also flowed in, in profusion; from some, simple but fragrant boquets of spring flowers, from others of more ample means, magnificent and costly presents.

We need scarcely say there was music. Music in the house: by members of the family, who wrought melodious enchantment on piano, violin and flute. Music in the chilly air outside by a professional harmonious band. And banqueting came in due order. Good things of this life and exhilarating interchange of kindly sympathies. Altogether, we can think of few incidents about which so many delightful memories have seemed to cluster.

Mr. Dilworth's commemoration of this proud era in his wedded life, belongs in a measure to the public. He is a representative Pittsburgh man. His name is associated with some of the most magnificent monuments of local enterprise. In the year of his marriage he superintended the erection of the piers of the first bridge over the Monongahela River; in 1819—two years later—of the first bridge that joined our town to the shore of Allegheny. In 1834 he and Mr. Joseph Coltart commenced the Court House and Jail, completing the erection of those structures in 1840. At that date he was elected a member of the State Legislature, in which body he served with infinite credit, gaining golden opinions from those with whom rectitude of purpose and unswerving integrity are of more value than glittering pretension.

Now, in the sere and yellow leaf of life, William Dilworth and his excellent help-meet, still sure to enjoy and shed around them many years of quiet happiness, call forth from us warm congratulations for the household joys that have been theirs and the sincerest hope for every future phase of pleasant fortune that Providence can hold in store for them.

Mr. Weed's Reminiscences.

Mr. Weed now and then regales the public, with reminiscences of an agreeable character. On Saturday last he gave a chapter, including a history of the printing of the first Mormon Bible, thus:

"We lost another opportunity, about the same time, for 'imprint' fame, by declining to print 'Joe Smith's' Mormon Bible. He came to us from Palmyra, with his then unpublished manuscripts. Upon reading a few pages of unintelligible jargon, we inquired if he was in earnest about publishing such trash, when, placing what he called a 'Golden Tablet' in his hat, he read from it another chapter of revelations. Still we were incredulous, and advised him to burn it, instead of printing it. Soon after he came again, bringing Arnold Harris, a well-to-do farmer and convert, to mortgage his farm as security. But we advised Harris to eschew Mormonism and keep his farm. Like Dandie Dinmont, who, when Counsellor Playdell refused his retainer, resolved to employ another lawyer, 'Joe' went across the street to Elihu Marshall, another printer, who took the job, got his pay, along with the glory of being the first printer of a Mormon Bible."

Mr. Weed is in error. The first Mormon Bible was printed by Egbert Grandin, publisher of the Palmyra, N. Y. *Sentinel*, and it was Martin Harris (not Arnold,) who mortgaged his farm as security.

FARMING IN LIBERIA.—If the accounts given of Augustus Washington's farming in Liberia are a sample of what an intelligent and energetic colored man can do in that country, it must be an attractive home for our freedmen. Mr. Washington has a farm of about 1,000 acres on the banks of the St. Paul river, from which he raised, last year, as one crop, over 100,000 pounds of sugar, and a proportionate amount of syrup and molasses. Fourteen years ago, when he moved on this land, it was a wilderness, and he was penniless.

THE Sandusky *Register* says: "The fishermen have thus far experienced a hard season. The catch of fish has been exceedingly light, compared with former years. The high winds have almost daily damaged the ponds, and cold weather has rendered fishing very unpleasant.

THE DECISION IN INJUNCTION CASES.

Reconstruction in Mississippi.

Registration in New Orleans.

Sheridan's Order Remodeling the Police.

Special Dispatch to the Pittsburgh Commercial.

WASHINGTON, May 6, 1867.

The Injunction Cases.

The Supreme Court has decided not to render a written opinion at this term of Court on the Georgia and Mississippi injunction cases, but to defer it until the next term. The decision, however, which has been determined on, will be made public on Monday next. This was the case with the famous Bowles and Milligan case, the written opinion being delayed for several months after the decision was given.

Registration in Mississippi.

General Ord has applied for the Registration books, certificates and other blanks used in the enrollment of voters in the Southern States, and will proceed with that work in Mississippi during the present month.

Criminals Want Pardons.

There are now on file in the Attorney General's office, a large number of applications for the pardon of criminals, among which are several convicted of passing counterfeit money and robbing the mail. A larger number of the petitions are for the pardons of those convicted in the Criminal Court of this District, but the Attorney General being busily engaged, it is impossible for him to examine into the cases.

Cadet Appointments.

General Grant had a long interview with the Secretary of War this morning, relative to the appointment of cadets at West Point, which will be made this week by the President, assisted by the Secretary of War.

Registration in New Orleans.

General Sheridan having decided to close the registration in New Orleans, May 15, the President telegraphed him to keep it open until all voters were registered within the limits of Attorney General Stanberry's forthcoming decision on the disfranchising clause of the Reconstruction act. A copy of General Sheridan's order remodeling the police force at New Orleans, has been received at Grant's headquarters. He quotes an act of the Louisiana legislature prohibiting any one who has not resided five years in New Orleans from being a policeman, and says "the object of this act was to exclude ex-Union soldiers from the police force. It was faithfully carried out by the newly elected Mayor Monroe, and every ex-Union soldier discharged to make room for those of rebellious antecedents. To annul this unjust proscription so much of the act as requires a residence of five years is suspended, and a residence qualification of two years adopted. The Mayor is directed to adjust the present police force, so that at least one-half of said force shall be composed of ex-union soldiers, and all acts and ordinances, State or municipal, in the way of this adjustment, will be disregarded.

Impeachment.

The Judiciary Committee took no evidence to-day, but spent their time in discussing legal points.

Governorship of Colorado.

Alex. Cummings resigned to-day as Governor of Colorado, to accept the Assessorship of the Fourth Pennsylvania District. The President will probably appoint A. C. Hunt, who ran for Congress, to fill the vacancy.

WASHINGTON, May 8, 1867.

RICHMOND PAPERS SUPPRESSED.

It is reported that two of the Richmond papers have been suppressed—the *Examiner* and *Times*, they being indicted for inciting treason and rebellion.

THE TRIAL OF DAVIS.

The Washington *Republican's* Richmond special says that Judge Underwood had stated in open court that Chief Justice Chase would preside at the trial of Davis on the adjournment of the Supreme Court.

THE NEW ORLEANS REGISTRATION.

The President telegraphed Gen. Sheridan to day not to close the registration on the 15th, as he proposed to do, but wait for the decision of the Attorney General. Gen. Banks and Judge Busteed arrived to-day.

THE NAVAL ACADEMY.

The examination of cadets at the Annapolis Naval Academy will commence on the 20th. The midshipmen will start on a summer cruise in the sloops-of war Dale, Macedonian and Savannah, about the 15th of June.

RAIN STORM.

A severe northwest rain storm, which commenced Monday, is just abating. A heavy freshet in the Potomac is anticipated.

THE OLD DOMINION.

In the Supreme Court the argument in the case of Virginia against West Virginia, was concluded to-day.

IMPROVING.

Secretary Browning is still very weak from sickness, but is slowly improving.

HEAD-STONES FOR NATIONAL CEMETERIES.

Humphreys, will assemble here on the 9th inst., to consider the subject of headstones, or blocks, by which the graves in the National Cemeteries are to be marked. The Board will report upon the following points: First, the best, most endurable and most economical material; second, most appropriate form of head-stones or blocks, and third, estimate the cost of each stone, and aggregate cost of the number required for all National Cemeteries.

After visiting the naval school and other places of interest there, it is their intention to visit Fortress Monroe, West Point and several National Navy Yards, iron-clad arsenals and machine shops. During next week they will visit General Grant and present the sword sent by the Tycoon.

FROM JAPAN.

Japanese Seamen Seeking an Education--Movements of the French Minister.

SAN FRANCISCO, May 8.—The A. M. Lawrence, from Yokohomo, April 4th, has arrived. News unimportant. Two Japanese seamen came by her, sent by the Government to study the theory of navigation in our city college, and afterwards to proceed to the Eastern States to learn practical navigation.

The Japan *Times* says the French Minister has returned from Osaka. The Guerrierre went down for him and returned March 28th. His prolonged absence caused conjecture. Before he went to Osaka he was known to be opposed to the opening of ports and endeavored to postpone it. It is surmised that he has been selecting the best sites for a new post and his own residence and working for a concession. His compatriots had several interviews with the Shagoon, who received the Admiral and officers of the French ships, treating them with similar courtesy shown our own Admiral and officers by the Prince.

Inland sea news from Hakodadi, March 7th, was unimportant. Captain Hatfield, of the American bark Swallow, was drowned at Yokohama, April 4th. The steamer Herman, from San Francisco, March 1st, arrived at Yokohama, April 4th.

Steamer Grecian Sunk.

MONTREAL, May 8.—The steamer Grecian struck a rock while shooting Lachine rapids yesterday, and began to fill rapidly. She was run upon a sand bank, where she sank with her main deck above water. Her passengers were all saved. Twenty vessels, inward bound, are reported at Green Island.

THE CHINA'S MAILS.

The Fate of Dr. Livingstone--The Tailors' Strike in Paris---Understanding Between France and Austria in the Event of War--Victoria's Letter to Prussia.

NEW YORK, May 8.—The China's mails arrived late to-night, with London papers of the 27th. A small expedition is to be dispatched to Africa to learn the fate of Dr. Livingstone. A small iron steamer has been taken for the navigation of Lake Nybasa.

Nearly all the tailor shops in Paris are now closed, and 30,000 men have thrown themselves out of bread.

It was believed in Paris that Jules Favre's demand for leave to question the Government on the Luxemburg question, would not be allowed in the legislative body. The *Memorial Diplomatique* says it is believed in diplomatic circles in Vienna that the Duke de Grammont had brought from Paris the basis of intimate understanding between France and Austria, in view of eventualities should war become inevitable. Victoria's letter to the King of Prussia energetically insists he should spare Europe the calamity of a war, in which England would necessarily preserve absolute neutrality, as she disapproves of the excessive claims maintained by Prussia.

The European *Times* of the 27th says: Every day diminishes the prospects of peace between France and Prussia. The war fever is gradually rising in Paris, and the hatred of the French toward the Prussians is on the increase. Preparations for a decisive struggle in each country are being pushed forward in each country with extraordinary vigor. Rumor declares that Victor Emanuel is to receive a French loan, or perhaps gift of twenty-four millions sterling. The Court of Berlin makes a demand from Germany beyond the pale of a hundred thousand men within a month of breaking out of hostilities. There is just a possibility that peace will be preserved, the Court of Berlin having consented to demolish the fortress of Luxemburg.

The London papers generally coincide that war is almost certain.

It is officially affirmed that Denmark made no military preparations.

The Spanish Government has accorded amnesty to all corporals and privates concerned in the military revolts of January and June last year.

The project of uniting Hungary and Croatia has become more popular at Agram.

FROM ST. LOUIS.

Sad Accident at Lindell Hotel---The Eight Hour Movement---Death of an Illinois Congressman---The Indian Expedition.

ST. LOUIS, May 8.—The planks supporting a derrick on the scaffold in front of the Lindell Hotel, used in taking down the walls of that building, broke to-day and precipitated four men from the fifth story to the pavement, instantaneously killing Jno. Manyath, fatally wounding Geo. Nicholas, and badly hurting two others.

A meeting of master mechanics, manufacturers and contractors to-day adopted resolutions opposing the eight hour system, and declaring they will not employ or submit their work to any one that will not work ten hours, and employ their men by the ten hour rule. They also agreed not to hire men belonging to societies organized for any purpose of interfering with the free will of master mechanics or any men they may employ, and appointed a committee to organize a permanent society of master mechanics, contractors and manufacturers to protect freedom of labor and mechanical interests in St. Louis.

The number of steamboat arrivals at this port for the year ending to-day, was three thousand six hundred and twenty. Tonnage, one million fifty-two thousand three hundred and eighty-one tons.

Hon. Sam. S. Marshall, Congressman from the 11th District of Illinois, died at his residence, McLeansborough, a few days ago.

The *Democrat's* correspondent with the Indian expedition says: Gen. Hancock has not crossed the Arkansas river into the Indian country, in consequence of the absence of Gen. Custar's cavalry, the most effective part of his force, and will soon start for Fort Hays; thence to Fort Harker, where the expedition will be terminated, and the force composing it sent to Forts Lyon, Dodge and Hayes. A new fort is to be built at Monument Station, and an efficient garrison stationed there. A council with several Arapahoe chiefs at Fort Dodge, on the 28th ult., resulted in a declaration for peace on the part of the Indians and a promise to return twenty-five mules taken by them from an encampment. The Kioawas, below the Arkansas, manifest a restless and defiant attitude.

RAILWAY MATTERS.

The National Railroad Convention--Sale of Franchise to a Monopoly--Injunction Applied For.

NEW YORK, May 8.—The National Railroad Convention met to-day, J. Edgar Thomson, President of Pennsylvania Railroad, in the chair. Nearly all the roads were represented, including a number at the South. Subjects of signals, rates of freight, &c., were considered, as also a resolution looking to increased charges to Government for transportation of mail matter.

It is reported that the franchise of the Baltimore and Potomac Railroad has been sold to to the Baltimore and Ohio road for a half million dollars.

A motion is to be made in the Supreme Court on Friday for an injunction to restrain the Prairie Du Chien Railroad Company from purchasing the McGregor, Western and Minnesota Central Railroads, and constructing eighty-five miles of track connecting them. Also, to restrain them from issuing $300,000 of stock and bonds to carry out the scheme. Judge Smith granted a temporary injunction a few days ago, and this is a motion to continue it.

Substantial Tribute to William Lloyd Garrison.

BOSTON, May 8.—William Lloyd Garrison was among the passengers to-day for Europe in the steamer Cuba. Several of his friends went on board just previous to the sailing of the steamer, and Rev. R. C. Waterson, on their behalf, made known to Mr. Garrison that thirty thousand dollars had been contributed and deposited subject to his order, as a partial tribute for his life-long and successful labors in the anti-slavery cause. Mr. Garrison expressed his earnest thanks in a few words, the time being too short to allow extended remarks, and after a general shaking of hands and wishes for a pleasant journey, the affair was ended. It is understood $20,000 more will be raised.

Medical Convention at Cincinnati.

CINCINNATI, May 8.—A banquet was given to the delegates of the Medical Convention at Melodeon Hall, last night. Mayor Wilstach, in a speech, tendered the hospitalities of the city. Toasts were drank and appropriate responses made.

The attendance at the Convention this morning was very large, but no business of importance was transacted. By invitation of Hon. George H. Pendleton, the delegation visited his residence at Clifton, this afternoon, where they were magnificently entertained. The entertainment continued till a late hour, to the entire satisfaction of all present.

Welcome to Foreign Presbyters.

PHILADELPHIA, May 8.—Rev. Drs. Fairburn, Denham and Hall, and Rev. Mr. Wells, a Scotch and Irish Presbyterian delegation, received a formal welcome here last night at Dr. Wylie's church. They start to-morrow upon a tour through the principal cities of the Union.

MANUFACTURERS' CONVENTION.

The Movement Against Free Trade.

Northern and Southern States Represented.

Protective Societies in Every Village Recommended.

NEW YORK, May 8.—A convention composed principally of Western manufacturers was held here to-day. Peter Cooper presided. A number of letters from prominent manufacturers and political economists were read, expressing a desire for the organization of a movement against free trade. Gov. Pierrepont, of Virginia, and Horace Greeley were among the speakers, and representatives from Massachusetts, New Hampshire, Vermont, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Georgia, Tennessee, Illinois, Michigan and other States announced their names. A temporary organization was effected, but the temper of those from a distance did not correspond with that of the New Yorkers, who wanted an immediate permanent association. The formation of a protective society in each village was recommended, to act in concert with the National League.

Movement of Ocean Steamers.

BOSTON, May 8.—The steamship China arrived this afternoon. The Cuba sailed to-day, taking $55,000 in specie.

Arrived, the steamer Delaware, from Liverpool.

LATE NEWS ITEMS.

It is reported that Messrs. Watts, Crane & Co., of New York, cotton brokers, failed for $1,000,000 on Tuesday.

The Court of Claims have awarded to Mr. Simon Stevens $58,000 for foreign guns sold to General Fremont in Missouri. Said guns were of a lot sold for a nominal sum by the United States as worthless, and again condemned and thrown away by the volunteers.

It is said there is no probability of the removal of Hon. Isaac Newton from the position of Commissioner of Agriculture.

A Baltimore dispatch says: The appointment by Judge Parkin Scott of the notorious Ex-Commodore Hollins, of the rebel navy, as Crier of his Court, an office worth five thousand a year, and bailiffs and subordinates of the same antecedents, has given much dissatisfaction to many home democrats, hundreds of whom expected appointments. It has also stirred up the loyal citizens considerably, and makes the radicals more determined to accomplish their ends.

The report of the Directors of the Bureau of Statistics for the month of April, 1867, has just been published, showing the statistics of the commerce and navigation of the United States up to the 31st of March last. The value of the imports of foreign commodities for the nine months ending March 31st were $306,633,833; for the three months ending on that date, $94,794,482; and the month of March, $31,082,119, of which amount $27,954,743 was dutiable and $327,376 free of duty. Of the whole amount imported in March, goods valued at $18,606,484 were entered for consumption, and goods valued at $12,475,035 entered into warehouse.

A Fortress Monroe correspondent says: The most gratifying reports have already been received from the counties and registration districts of this State south of the James river, which furnish conclusive evidence of the conciliatory manner in which the inhabitants are receiving the registering officers and assisting them in the preliminary measures of the reconstruction bill. This feeling among the people is general, and even those disqualified by the bill have in many cases, proffered their assistance, and impressed upon their neighbors the actual necessity and policy of non-interference with the registration of the duly qualified voters. The utmost good feeling exists towards the colored people, now that the question of their suffrage is no longer unsettled. The education of the negro, and their moral and social elevation, is now acknowledged to be a duty incumbent on all the people, and is the only proper and judicious means which will advance the interests of both classes, and promote the prosperity of the State. The capitalists and land owners are beginning to see the prime virtue of creating modes of employment for the negroes, and are offering them lands on favorable terms and furnishing them with agricultural implements and materials.

The "Genial Critic."

[From the Nation, May 2.]

We have before us a printed circular issued by the proprietor of the *Independent*, a religious weekly paper of this city, and addressed to "booksellers and publishers," soliciting advertisements, and judiciously marked "private." He announces at the opening that the *Independent* is "unsurpassed in circulation and influence by any religious paper on the globe;" that "in name and reputation it has no superior;" that "in character and ability" it has acquired "a fame thoroughly national;" that its subscribers are a reading class, a book-buying class," "in comfortable or independent circumstances," including "seven or eight thousand clergymen of all denominations." Much of this, no doubt, is true. The *Independent* has some excellent qualities, and has certainly a very wide circulation, but this only increases its responsibility in the matter of "book notices." But the views of duty on this subject entertained by the publisher of this wonderful "organ" may be inferred from the following paragraph:

"BOOKS SENT FOR REVIEW.—The managers of *The Independent* desire to make their paper in this respect *as acceptable to book publishers as possible*. All books sent for review are considered as candidly and *favorably* as possible. We cannot review *every* book sent us, as our space for book notices is limited. Yet ALL books of worth are reviewed and well treated."

We have great pleasure in giving this notice the benefit of our circulation. Publishers will observe that it is only their "books of worth" that are favorably treated, so they had better send their poor books elsewhere. The Genial Critic never occupies himself with the chaff. There is one question we should like to ask him, and we leave him to answer it at his leisure. He will be the last man in the world to deny that humbug is the great curse of our time. What we wish to know is, how he supposes society is ever to be delivered from it if the press, and especially the religious press, which is the *ex officio* exposer of humbug, is to remain one of its most besotted worshippers? Has he no bowels of compassion for the "best families, the people of intellectual culture and appreciation," even though they are "in comfortable and independent circumstances," and especially the "seven or eight thousand clergymen," who every week have to read his "candid and favorable reviews?"

DEATHS FROM SUFFOCATION.—The Bethlehem, Pa., *Times*, of Saturday, says: "This morning, about six o'clock, a sad spectacle was discovered in the sleeping apartment of the kitchen help of the Young Ladies' Seminary. Two of the girls, named Susan Manherty and Hannah Hawk, were suffocated to death by inhalation of carbonic acid gas, communicated to the room in which they were sleeping by a flue connecting with a coal stove in the story above. Seven of these girls usually occupy this apartment at night, but only six were there last night. One of the girls, when about to retire last night, heard strange noises in the room—probably the death struggles of the unfortunate girls—and, being frightened, ran up stairs and locked herself in. All the persons in the room, besides those who lost their lives, were more or less affected—one so seriously that her life is despaired of." It is proper to state that the room in which the unfortunate girls slept has no connection with the sleeping apartments of the pupils of the establishment, being the room appropriated to the helps, and in a distant and entirely separate part of the building.

THE CHOLERA CONFERENCE IN WELMAR.—The following in reference to the Cholera Conference already noted, appears in the *Pall Mall Gazette*:—"Several eminent German physicians, including Professors Wunderlich, Leipsic, and Von Petterkofer, of Munich, have agreed to meet at Welmar on the 28th April, to have a conference on the cholera. The following questions are to be discussed at this conference: First—What has been the experience of the profession in the year 1866 regarding the spread of cholera and the local and cronic sources of the epidemic? Second—What have been the results of disinfection and quarantine? Third—What sanitary measures should be recommended for the future? Fourth, To what points should future observations espaically be directed? It is said that Sir John Simon will attend the meeting.

THE eight hour riots in Peoria, Ill., on Thursday, if less extensive than those at Chicago, were no less disgraceful. Early in the morning about fifty workmen from the distilleries marched in a body to the Peoria paper mill, and threatened to burn it down unless the operatives stopped work. They put an end to all work at the railroad shops, drove off the workmen at a bakery, many of whom were employed by the job, and not interested in the eight hour law, and committed similar excesses all over the city. The next day, however, all was quiet. The President and Secretary of the Peoria Working Men's Association, have issued a circular expressing their utter disapproval, and that of the association, in regard to the conduct of the rioters.

A new English book gives some insight into the customs of mechanics; "When an apprentice enters a shop, he will in all probability be taught to 'keep nix' before he is told the names of the tools. Keeping nix consists in keeping a bright lookout for the approach of managers or foremen, so as to be able to give prompt and timely notice to men who may be skulking, or having a sly read or smoke, or who are engaged on 'corporation work'—that is, work of their own."

CONCERT TO-NIGHT AT THE ACADEMY OF MUSIC.—It will be borne in mind that the Concert by the pupils of Mr. Clement Tetedoux will take place at the Academy of Music this evening. The programme, which will be found in another column, embraces many charming pieces, and from the proficiency usually acquired by Prof. Tetedoux's pupils, we judge they will all be delightfully rendered. Our amateur concerts are always entertaining, and this one to-night we feel assured will prove no exception to the rule. Seats may be secured at Kleber & Bro.'s, Wood street.

FAIR AT WILKINS' HALL.—The Fair and Festival being held at Wilkins' Hall, for the benefit of the Seventh Ward Mission Sabbath School, will continue to-day and to-morrow. Supper will be served each evening from five to ten o'clock. A general invitation to the public to attend the Fair is extended, and as the object is a noble one and deserving the support of the Christian community, it is hoped that the Fair will be well patronized, and a handsome sum realized towards the purchase of the Public School Building, for the use of the Mission Sabbath School of the Seventh Ward.

SOLDIERS' LEAGUE MEETING.—A regular meeting of the Allegheny County Soldiers' League was held at their hall in Allegheny, on Tuesday evening, President A. P. Callow presiding. Col. M. S. Leggate, Esq., for a contribution of valuable books for the Library. After transacting some unimportant business, the League adjourned. The Board of Managers of the Library will meet on Saturday evening next.

The Sproul Murder.

Previous information received from Washington, Pa., led the press of this city to believe that Miss Sproul, sister of David Sproul, deceased, had positively identified John Bird and Thomas Whittaker as the murderers of her brother. The Washington papers state the case differently. The *Examiner* of yesterday says: "Miss Sproul, the sister of the deceased, and who was bound to the bedstead by the murderers, was taken into jail on Monday to look at the two men. She said she thought Whittaker was one of the three persons who committed the deed, and that she also was of the opinion that Bird was one of the two who had been at the house a few days previously for the ostensible purpose of buying cattle. She also stated that Bird was about the size of one of the murderers, but would not speak positively as to his being one of them. The prisoners were heavily ironed on Monday evening."

The Canonsburg Bank Robbery.

On Monday evening last Mr. Benjamin South, Cashier of the Farmers' Banking Company of Canonsburg, appeared before Justice Smith, of Washington county, and made an information against one Robert Matthews, charging him with complicity in the robbery of the bank at Canonsburg, early Friday morning last. The warrant was endorsed by Alderman Strain, of this city, who was in Washington at the time the information was made, and placed in the hands of officer Seth Wilmot, of the Independent Police force of this city. Upon arriving here, officer Wilmot discovered that Matthews was already in custody, having been arrested on a charge of passing counterfeit national currency, and committed to the county jail. After the disposition of the charge of counterfeiting, Matthews will be taken to Washington county, on the charge of robbery. Silver coins, answering the description of those stolen from the bank at Canonsburg, have been traced to the prisoner's possession.

Sad Accident.

A distressing accident occurred on Tuesday night, resulting in the death of Mrs. Mary A. Donaldson, wife of Alderman James Donaldson, of the Fourth Ward, at her husband's residence, No. 32 Ferry street. It appears that she and her husband had retired at an early hour, and about eleven o'clock their eldest son, Mr. J. V. Donaldson, came home, having been absent from the city for several days. Mrs. Donaldson arose from bed and went up to his room in the third story to see him, and upon returning, it is supposed, she tripped on the stairs and fell. The Alderman's youngest son was coming in at the time, and immediately aroused the family. Dr. McDonald [illegible] expired in a few moments. The physician is of the opinion that her neck was broken by the fall. The deceased was sixty-two years of age, and was an estimable lady. She had been in very feeble health for some months past.

DEMOCRATIC COUNTY CONVENTION.

Delegates to the State Convention Elected---Hon. Walter H. Lowrie Recommended for the Supreme Bench.

Pursuant to a call of the Democratic County Executive Committee, the delegates chosen on Saturday last for the purpose of electing representatives to the State Convention to be held in Harrisburg, on the 11th of June, to nominate a candidate for Judge of the Supreme Court, assembled in the Quarter Sessions Court Room yesterday morning at eleven o'clock. The Convention was called to order by Gen. George W. Cass, Chairman of the County Executive Committee, and Messrs. Wm. T. Fairly and John C. Barr appointed temporary Secretaries.

The credentials of the delegates were then handed in and read by the Secretaries, when it was ascertained that thirty-nine of the seventy-three districts in the county were represented.

The Convention then went into an election for permanent President, when J. C. Buffum, Esq., of Lawrenceville, was elected by acclamation. Mr. Buffum, upon taking the chair, returned his thanks for the honor conferred upon him, and expressed the hope that the proceedings of the Convention would be harmonious.

The following gentlemen were chosen Vice Presidents—Messrs. John Coyle, John A. Strain, Robert Morrow, Dr. James Kerr, E. Eichenlaub, William Piper and Captain St. Clair.

The temporary Secretaries were retained as permanent Secretaries, with the addition of Mr. Essias Stewart.

Mr. John O'Connor moved that a Committee of five be appointed to draft resolutions expressive of the sense of the Convention.

The motion not being seconded, Dr. A. G. McQuade moved that all resolutions be laid aside for the day, which was carried unanimously.

Mr. O'Connor—Is it the understanding that no resolutions shall be offered at this Convention?

The President remarked that such was the understanding.

John M. Irwin did not desire that the delegates to be chosen should be sent to Harrisburg uninstructed.

Wm. M. Linn, Esq., stated that the choice of the Convention for a candidate for the Supreme Bench could be announced by a simple motion.

The Chairman announced that two sets of delegates from the Third ward had handed in credentials. A motion was made to admit both delegations, when John C. McCarthy, Esq., stated that in order to save trouble he and his colleague would withdraw.

The Convention then proceeded to nominate delegates to the State Convention. The following gentlemen were placed in nomination:

Delegate at Large—James P. Barr, elected by acclamation.

Pittsburgh—John A. Strain, James M. Taylor, John O'Connor, R. C. G. Sproul, James H. Hopkins.

Allegheny—William H. Reel, Charles P. Whiston.

Between the Rivers—Thomas J. Keenan, H. B. Sinclair, J. C. Buffum.

South of Rivers—Dr. James Kerr, Robert McCabe, John P. Helsel, Henry Ingram.

North of Rivers—Joseph Lofink, Wm. D. Moore, Charles Bryson, Peter Ivory, Jacob Keil.

The Convention then adjourned till one o'clock.

AFTERNOON SESSION.

The Convention reassembled at one o'clock, and was called to order by President Buffum.

A delegate moved that the rule requiring that the election should be made by a *viva voce* vote was suspended, and the delegates proceeded to vote by marking, with the following result:

PITTSBURGH—(TWO TO BE ELECTED.)

John A. Strain .... 45 | R. C. G. Sproul 30
James M. Taylor .... 19 | J. H. Hopkins, withdr'n.
John O'Connor 55

ALLEGHENY—(ONE TO BE ELECTED.)

William H. Reel .... 38 | Charles P. Whiston 31

BETWEEN THE RIVERS (ONE TO BE ELECTED.)

H. B. Sinclair .... 9 | J. C. Buffum 59
T. J. Keenan, withdrawn

SOUTH OF RIVERS (TWO TO BE ELECTED.)

Dr. James Kerr .... 60 | Robert McNair 7
John P. Helsel .... 48 | Henry Ingram 17

NORTH OF RIVERS (ONE TO BE ELECTED.)

Joseph Lofink .... 13 | Wm. D. Moore 41
Charles Bryson .... 2 | Peter Ivory 4
Jacob Keil 6

On motion, the candidates receiving the highest number of votes were declared duly elected.

During the pendancy of the vote, Mr. John Murray stated that he had been requested by Mr. James H. Hopkins to withdraw his name.

Mr. John M. Irwin objected. He was in favor of sending men to Harrisburg who could be trusted to represent the Democracy of Allegheny county, and who were not seeking the position. He was opposed to voting for candidates who were button-holeing delegates and begging for their votes.

A delegate stated that Mr. Hopkins had not authorized the withdrawal of his name, when Mr. Murray handed the chairman a letter from that gentleman, in which he stated that it would be impossible for him to attend the convention. The name was then withdrawn.

John A. Strain, Esq., offered the following resolution, which was adopted without debate:

Resolved, That the choice of this convention for candidate for the Supreme Bench, to fill the place of Hon. George W. Woodward, whose term will shortly expire, is Hon. Walter H. Lowrie. His legal learning, sound judgment, integrity and industry, together with his long experience eminently commend him for that position, and we hereby instruct our delegates to earnestly urge his nomination by the State Convention.

Dr. James Kerr introduced a resolution endorsing the *Daily Post*, which was adopted.

R. C. G. Sproul, Esq., offered the following:

Resolved, That it becomes constantly more evident with the advance of time that the only proper care for the great and growing evils of the country is the restoration of the Democratic party to power.

Resolved, That the cry of suffering from famine which reaches us from the Southern country calls aloud for a prompt and earnest response from every friend of humanity.

The resolutions were adopted unanimously.

Wm. D. Moore, Esq., was then called upon to address the Convention. Mr. Moore stated that the country was being utterly destroyed by the party now having control of it, and he believed it the duty of every patriot to lend all the power which God had given him to redeem the land from men who are enemies to its laws and chartered rights. Not only were ten or eleven States under military subjection, but the entire country was being reduced to a state of anarchy. The last defense and safeguard was the judiciary of the land, and the speaker called upon the Democracy of the county to exert themselves for the success of their ticket at the next State election. Mr. Moore declined to give an extended speech.

John N. McClowry, Esq., handed the Chairman a resolution, and requested that it be read.

Wm. M. Linn, Esq., stated that he understood the resolution contained a reflection against a former Convention, and moved that it be laid on the table. Several delegates sprang to the floor and commenced speaking, when a motion to adjourn *sine die* was offered and passed. The Convention then adjourned.

The following is the resolution which Mr. McClowry proposed to offer:

Resolved, That we condemn the action of the last Convention assembled at the call of Gen. Geo. W. Cass, in surrendering the time-honored name of Democrat party, and coalescing with fusionists, the result of which fusion was the polling of only thirteen votes more than the square old Democracy polled in the contest for their distinguished candidate for Governor, Hon. George W. Woodward.

R. Brunot; 42 copies to Mrs. Crumpton's Mission School; 111 copies to Kansas; 45 small and 5 large prayer books sent to St. James' Church; 50 sold to the Sabbath School of the Episcopal Church in Sharpsburg.

The Mission Service distributed as follows: 300 copies given to the P. E. Mission at Vicksburg; 50 copies to Orphan Asylum at Memphis; 100 copies to Mrs. Butler for Tennessee; 175 copies to Bishop Kerfoot for Missionary use; 25 copies to Rev. Mr. Rafter for West Newton; 25 copies to the County Poor House; 25 copies for Missionary use in Hollidaysburg; 50 copies sold—total 587 copies.

Books remaining in Library—2 medium size prayer books, 12 large size prayer books; 485 copies of the Mission Service.

We have never refused an application for prayer books in this Diocese, and have also assisted by donations of prayer books the following Dioceses in 1856, Wisconsin; 1857, Iowa; 1858, Kansas; 1858, Michigan; 1860, Wisconsin; 1859, Ohio; 1859, Indiana, Illinois, and Ohio; 1861, Illinois Third Regiment of soldiers, Minnesota; 1862, Missouri and German, French and English prayer books to soldiers in Missouri, Oregon, Little Rock and Memphis; 1863, Ohio, Missouri and Iowa; French Mission at St. Auris, Illinois, Nevada and Colorado; 1864, 500 Mission service to soldiers in hospitals; rebel prison at Rock Island; refugees at Helena; Indiana and Ohio; soldiers prayer books to the hospital at Nashville. 1865, Minnesota, Missouri, Indiana and Arkansas. 1866, Colorado and Idaho. 1867, Iowa, Kansas, Wisconsin, Nashville and Memphis.

We have been cheered this year, in our work, by receiving substantial evidence of sympathy and appreciation from the churches at Erie, Franklin, Washington and Monongahela City.

Since its beginning, the Managers of this Society have desired to have every Parish in Western Pennsylvania interested in the work and represented in the Society, but we have hitherto failed. We still hope that the Pittsburgh Society may be the organ through which every church in the Diocese will be led more fully to appreciate the duty of contributing to supply the Prayer Book to those who cannot buy. We feel that this Diocese should not in any particular be dependant on any other, and least of all, should its missions be found applying to the East for donations of Prayer Books.

If every minister would make a collection annually for our Society, we could not only answer freely to the demands within our borders, but could do vastly more in the good work of supplying the great missionary field of the West and South.

While it is the desire of the managers to answer, without hesitation or question so far as the funds permit, to every demand from our own diocese, it has been thought good policy to urge the importance of selling, instead of giving, the books in every case where the recipient or the parish is able to pay.

Any price, however small, is better than none, not for the intrinsic value of the money, but because the books purchased are more highly prized and cared for, than when they cost nothing. Some of the Rectors are acting upon this plan, and express their satisfaction with the result.

We would gladly furnish all with our books at reduced prices to be kept in the vestry rooms and sold to those who may need them.

The President, Secretary and Treasurer constitute the Executive Committee of the Society, with power to act upon all matters during the recess of the Board. Applications for books should be made in writing, addressed to the President, who with the concurrence of the other members of the Committee, will issue orders on the Librarian.

The Librarian requests us to make the statement that she is not authorized to issue books without a written order, which she presents as her report and voucher at the end of the year. We are also asked to say that it would greatly oblige her, and facilitate the reception of books, if those to whom the grants are made could have them called for by some city friend, who would pack and ship them. She has no facilities for packing and shipping, except at considerable expense.

Managers nominated for the coming year:

President—Mrs. Thomas M. Howe.
Vice President—Mrs. Sophia Grant.
Treasurer—Mrs. Mary Jackson.
Librarian—Miss Traner.

The Session has had several meetings each week, for the examination and admission of applicants. And last Sabbath morning fifty-six made a public profession of faith in the Lord Jesus Christ. Twelve of these were baptized. In addition eight were received by certificate.

M. Wilson and the congregation of Ebensburg, were dissolved. Calls were presented from New Salem to the Rev. D. Harbison, and from Greensburg to Mr. Wm. H. Gill, and arrangements made for the installation of Mr. Harbison, and for the ordination and installation of Mr. Gill.

At the recent meeting of the Presbyterian Presbytery of Steubenville, a call was presented from the congregation of Two Ridges, for Rev. J. B. Dickey, which it is believed Mr. Dickey will accept when dismissed from his present Presbyterial connection with the Presbytery of Beaver.

At the same Presbytery meeting, Rev. Henry Woods was dismissed from his pastoral relation to the First Church, Steubenville. Mr. Woods intends to enter immediately upon his professorship in Washington and Jefferson College, to which he was elected by the Board of Trustees of that institution at their last session.

The subject of making a division of the Presbyterian Presbytery of Steubenville was discussed at the last Presbyterial meeting.

At the recent meeting of the Presbyterian Presbytery of Washington, the pastoral relation between the Rev. Samuel M. Henderson, and the Church of Pigeon Creek, was dissolved. Rev. J. W. Gilmore was dismissed to the Presbytery of New Lisbon. Mr. G. W. Riggle, a licentiate, was dismissed to the care of the same Presbytery.

At the same meeting of Presbytery, a committee was appointed to make all necessary arrangements for holding a centennial Convention some time during the Summer.

R. Lea, of Lawrenceville, has accepted an appointment to prepare that part of the Memorial Volume which relates to the early Fathers of Presbyterianism in Western Pennsylvania, their personal appearance, sayings, doings, illustrations of their character, and their surrounding circumstances.

At the late meeting of the Presbytery of Big Spring, of the United Presbyterian Church, Messrs. J. O. Carson, J. Ferguson and Skiles Woodburn, were appointed a committee to apply to the Government for the value of the church in Chambersburg, which was destroyed by fire while in possession of the Government.

At the last meeting of the Presbyterian Presbytery of Redstone, Rev. W. W. Ralston was received, and accepted a call from the church of Uniontown, and a committee was appointed to install him. Rev. S. L. Sample was dismissed to the Presbytery of Saltsburg. Messrs. Jas. G. Patterson and A. A. Hough were licensed. A committee was appointed to organize a church, if the way be clear, at Greensboro. Rev. J. C. Heneh, by request, was appointed stated supply of Mt. Washington one-fourth his time the ensuing year.

The First Presbyterian Church at Oil City, Rev. W. P. Moore, pastor, has just passed through a precious season. Prayer meetings, interspersed with preaching by the pastor and Rev. B. C. Critchlow, of New Brighton, were held for six weeks. At the communion, twenty-six young persons stood up for Jesus before the congregation.

The following additional delegates to the next Presbyterian General Assembly have been appointed: Presbytery of Washington—Rev. James I. Brownson, D. D., Rev. Joseph S. Pomeroy and Ruling Elders Montgomery Walker and Geo. C. Orr. Presbytery of Clarion—Rev. S. H. Holliday and Elder Hon. J. G. Brown. Presbytery of Zanesville—Rev. H. M. Hervey and Elder John Raney.

An Associate Reformed Presbytery, in connection with the Associate Reformed Synod of the South, has been organized on the borders of Pennsylvania and Ohio.

The Presbytery of Pittsburgh of the Presbyterian (N. S.) Church, held a meeting recently at New Castle, but transacted no business of importance.

The Minutes of the Southern General Assembly of the Presbyterian (N. S.) Church, show the number of ministers to be 829; churches, 1,282; members in the churches, 66,528. Several Presbyteries do not report the number of church members.

A conference of all the Unitarian churches was recently held in Dr. Prestley's old church in Northumberland, Pa. It was reported that congregations were about being organized at Wilkesbarre and Scranton, Pa.

The Daily Commercial

THURSDAY, MAY 9, 1867.

THE Democracy of Allegheny met in convention yesterday and appointed delegates to the State Convention. It has been usual, on such occasions, to pass resolutions, affirming old or proclaiming some new doctrine; but the mum policy was chosen this time, a motion for a committee on resolutions being promptly voted down.

THE people of Hayti, who, as a general thing, enjoy hugely the luxury of a revolution, conducted on the insurrectionary principle, having expelled President GEFFARD, do not seem to get on well. Several candidates for the succession are in the field, and it is not altogether unreasonable to suppose that they will get to quarreling among themselves, and possibly some usurper may appear and end the episode his own way.

IT is intimated that the gigantic lottery scheme authorized by the Legislature of this State, last winter, under the pretense of establishing an asylum for invalid soldiers, included among those who were to share the spoils a number of Members and Senators. It is scarcely possible that a "snake" so huge could have worked its way through the Legislature without pretty extensive promises of benefits. But this is not the sole ground of the suspicion referred to.

IN regard to politics in the South, it may be said that no feature is more conspicuous than the hostility manifested by old Democrats to renewing their connection with the party, as it is organized in the North. For the SEYMOURS, the PIERCES, the TOUCEYS, the BUCHANANS and the BLACKS there are no words but of distrust and contempt. Gov. COBB, of South Carolina, gave expression to the prevailing sentiment of the South, when he gave notice lately that he was for treating the Northern Democrats as "false friends," and utterly unworthy to be trusted. To this there appears to be a pretty general amen on the part of the Democratic press of the South.

CO-OPERATIVE movements appear to be the embodiment of the prevailing idea just at present among the mechanics. There could not be a better one. Indeed, it is too good to be spoiled by crude plans, as it is liable to be under the circumstances that have given it birth. In a number of towns and cities co-operative projects have been started with good prospects, but the danger is, too much will be undertaken without suitable preparation. In New York, last autumn, a number of journeymen printers organized to establish a co-operative printing office, pledging themselves to pay two dollars a week each, until a fund large enough had been raised. The idea was an excellent one, and the germ of what, if rightly managed, may become a first rate enterprise. It is, moreover, a suggestive one for mechanics in general, whose minds are dwelling on similar projects.

WE sympathize with the sober and Sunday keeping Philadelphians, in the annoyance they experience from the shameless traffic of intoxicating drink that is carried on in their streets on the LORD'S day. Mayor MCMICHAEL speaks of this abominable nuisance thus:

> "It is not to be denied that the present condition of things in Philadelphia on a Sunday, in regard to drinking houses is a scandal and opprobium. On many of our thoroughfares, people, in passing to and from their respective places of worship, are offended by the inducements to dissipation which are flaunted before them, and many a heart is made sad by the knowledge that some relative or friend is led astray by these temptations."

We do not understand why it is tolerated, being a palpable breach of the statute, if not of the municipal laws. Why does not the chief magistrate of the city stop it, instead of complaining of it? The *Press* proposes its catholicon, Sunday car travel, as a sure remedy. It might perform the work of some medicines—scattering the disease. We can't see how it could cure it. But Sunday car travel is, with the *Press*, a cure-all—the very *elixir vitæ* of city morals.

THE ruling passion strong in death, has received a remarkable illustration lately. A church association has been formed exclusively on the Democratic doctrine with reference to slavery. This, so far as appears, is the only plank in the platform. The most fastidious on the subject of long confession could not wish for a more simple creed—I believe in slavery as held by the Democratic party. A writer, who was present says, in a communication to a South Carolina paper, "the congregation are Democrats or Anti-abolitionists," (Phœbus, what a name!) and speaks of them as persons "*either* forcibly ejected or compelled by persecution" to leave other churches, because they "remained firm to the principles of the Democratic party." The favored spot where this organization formed is in the State of Ohio, Belmont county, with branch stations in Pennsylvania, at Patterson's Mills and Roach School House. The writer aforesaid, Rev. Mr. McElwee, thinks it "a most inviting field for church extension." The Democratic party ought to see to it, too.

BRECKINRIDGE AND HIS CLIENTS.

J. C. BRECKINRIDGE is said to have advised his friends in the Southern States to accept acquiescence in and obey the Military Reconstruction law, as the best thing that they can do, because it is the best thing that they can get. Counsel flanked by such reasons ought to be triumphant. If any one imagines, however, that J. C. BRECKINRIDGE has softened, repented, or grown more friendly to the United States Government than he was, a greater mistake could scarcely be entertained. And the fuller exhibition of his reasons in support of his counsel will show the morbid if not malignant condition of his mind.

He conjures up untold and inconceivable horrors as in contemplation by the Northern people, or rather their Representatives, if before the first of December, when Congress shall again assemble, the reconstruction is not effected according to the provisions of this law. This is evidently spoken, not so much to terrify the Southern people into obedience to the law, as to misrepresent and vilify the spirit and temper of Congress and the North. Again, like the more frantic of the editors in the interest of "the lost cause" and the "folded flag," Mr. BRECKINRIDGE is earnest and emphatic in his exhortions to unity among the Southern people. This seems to be a passion with them all, of that school, and it is, just now, greatly excited and exercised with alarm, as the lines of party division are making their appearance among the people. That selfish and treacherous set of politicians have striven for years to make the South a *unit*, as they term it, against the United States Government, and have succeeded in making it little more than a cipher *in* the government. Placing unity before right, as they do, we cannot but be gratified to see the terror that they betray on beholding the rise and growth of a Republican party among them. Mr. BRECKINRIDGE'S advice to his former friends is good, although his arguments to enforce it are irrelevant and insulting. We hope his old clients will not be deterred from following it, by their sad experiences in trusting to him in times past.

EMANCIPATION IN BRAZIL.

A system of emancipation has been decreed in this South American Empire, by which slavery will be extinguished in twenty years. This is very good for Brazil. It shows some progressiveness. Perhaps this is a reflection from the great bonfire of freedom which has been blazing up so conspicuously in our North American Republic—the healthy contagion of a good example.

But it is highly probable that there is a conservative party in Brazil, who will make themselves hoarse with grumbling at the overthrow of the dear, precious, old peculiar institution. As, however, the emancipation is to be touched off *aisy*—like the Irishman's gun—they may get reconciled to it before it is fully accomplished, or, they may, like the grumblers at the old Israelitish emancipation, have a chance to die off before the freed people get actually into the promised land. But if slavery in Brazil has been a pillar in any temple of party, or the life blood of any sectionalism, or the mystic tie in any political affiliations, its possible abrogation, even at the distance of twenty years, will be a subject of regret and complaint, as it is here, by those who place justice and humanity in abeyance to the lust of money and of political domination.

There is a small pin to hang speculation on, in the query that suggests itself in connection with the proposed immigration of effete secessionists to Brazil. Is emancipation a heading-off process—a broad hint to the proffered immigration, that their room is better than their company? Is it an intimation that, as they can see nothing beautiful without slavery, they will have to set their eyes on some other country than Brazil? It is not difficult, at any rate, to imagine the facetious politicians of that country meeting the pilgrims in search of a civilization supported by its stoutest prop, and with polite assurances that they had not yet reached their destination, pointing them to it, just on the other side of the water, on the African coast.

CANADA, ENGLAND AND THE UNITED STATES.

With reference to the present and the prospective relations of these three countries, two opinions or sets of opinions prevail in each of them. In England itself there is a large class who are in every respect loyal to the Crown and who yet are of the opinion that the Canada Confederation might, as well as not, be left to itself, to stand alone or to annex its interests and destiny to those of the United States. This class is represented as wishing that the country would dissolve its connection with England. And the easy and prompt assent to the Confederation, may be almost interpreted as a recognition of it as an independent State.

In Canada, too, there is a feeling and a wish of the same kind. But there is also a vigorous opposition to everything of the sort. A set of shadowy, imitative gentlemen, fond of aping the titles and the show of the English aristocracy, having no prop to their importance, but the semi-regal confederation, are exerting their influence both in Canada and in England, to make the connection the closer, by making the dependence of Canada and the pledge of protection in England more pronounced and unchangeable. And what deceitful expedients they resort to for the purpose of cherishing, in the English, at once a protective feeling toward Canada and a hostile one toward the United States, we may notice in the remarks of a prominent Canadian writer in an English paper.

He regrets the apparent lack of spirit in the English policy toward the colonies, and endeavors to encourage it by a series of absurd falsities like the following—that Canada can put five hundred thousand men into the field, that the forces of the United States are so reduced by the war that we have to depend mainly on foreign emigrants to fill up our armies, a source of supply that would be dried up suddenly by a war. In addition to this, the eminent Canadian—who might as well be a rebel exile—asserts that it requires but a war with England to raise up thirteen millions of allies in the Southern States, where the Confederacy would, in such a contingency, be instantly reorganized, with an almost sure prospect of successful maintenance. This is what the zealous but erratic Canadian schemer dreams of, and tries to persuade the sober minded English to believe a reality.

The success of this man and the party he belongs to is far from extensive, and the prospects no ways flattering. As we have said above, the evidence is that the English, who hold and who form public sentiment, care little more about carrying Canada than we do about taking it up as a load. Even the statesmen, such as DISRAELI, Lord STANLEY and others, are not in accord with the Canadian's views or wishes. A member of Parliament, Mr. ROBERT LOWE, in the debate on the Canada Confederation Bill, spoke very plainly on the subject, and took strong grounds against giving any guaranty or pledge that would bind England to indefinite expense in peace or war, for Canada, or would encourage the latter country to assume a hostile or provoking attitude toward the United States. And Mr. LOWE presents the whole case, as in a nutshell, in the repetition of a statement made by himself, three or four years ago, before a Committee of the House of Commons on the Colonies, as follows: "In the time of the American Revolution the colonies separated from England because she insisted on taxing them. What I apprehend is likely to happen now is that England will separate from her colonies because they insist on taxing her."

The idea being extensively entertained in England—and true withal—that the colonies are a cost to the Home Government, the separation of Canada from the English nation is not likely to require much of the rough surgery of war, nor to cause much pain to the nerves of either part. Time and wisdom will answer all parties better than fraud or force.

The Eight Hour Movement in Chicago.

The Chicago *Tribune* of Tuesday, sums up as follows the eight hour movement in that city:

> "Yesterday there was a very extensive resumption of work in the shops, outside of the railroad establishments. The resumption has been generally based upon the basis of ten hours, or, where eight hours have been agreed upon, at wages proportioned to the sum h therto allowed for ten hours. Working eight hours for eight hours' wages and working that time for ten hours' wages are very different things; and when men who only work eight hours a day at the close of the week find their wages reduced one-fifth, and their means of paying house rent and of living reduced to that extent, they will realize that the eight hour rule falls with intense severity upon them.
>
> "The cases where men have been re-engaged at eight hours' labor and eight hours' pay are exceptional. There are plenty of men willing and anxious to work ten hours, and who are in no way disposed to throw away one-fifth of their wages. With the exception of the railroad shops and iron establishments, the resumption of labor upon the ten hour rule has been pretty general. Occasionally men who have been on the strike find their places filled by new hands, and are disposed to be pugnacious, but rioting and disorder have generally ceased."

THE New York *Gazette* is not favorably impressed with the first few chapters of Mr. Beecher's novel. It regards it as "very certain that if the manuscript had been sent to a publisher, unaccompanied by an illustrious name, any intelligent 'reader' would have condemned it as hopeless upon reading the opening chapters." The *Gazette* criticism concludes with the remark: "It was pitiful to see Samson, with his eyes put out, grinding for his enemies. It is not pleasant to see Mr. Beecher trying his strength on a feeble work for which he has no fitness." For all this, even conceding it to be just, the story will be read and relished by thousands, and that, too, for the very things which the *Gazette* likes least.

THE Chicago *Journal* makes a statement which, if there be no mistake about it, should operate as a most decided eye-opener, not only to that city, but to all other communities disposed to look favorably on the so-called Eight Hour Reform. It is this:

> One of the leading architects estimates that at least three million dollars' worth of new buildings, that had been in contemplation in this city the present season, has been entirely abandoned or indefinitely postponed on account of the eight-hour movement.

THE *Independent* contains an article on "Forbidden Amusements" in favor of card playing, billiards and dancing, as amusements. The writer can see no objection, except in their abuse, to be urged against these amusements, and defends them for moral and physical reasons, quoting writers of acknowledged soundness to sustain his views.

THE Chicago papers make mention of "a nervous feeling in the wheat market," and a disposition on the part of holders to realize, with a decline of four cents a bushel. There has for some time been a decidedly "nervous feeling" among consumers all over the country, and it gives us pleasure to note the disorder has changed its base.

THE National Commi tee of the Presbyterian church, appointed to take measures for the union of the old and new school branches, is now assembled in this city. Dr. Adams has announced that there is a good prospect of agreement upon a basis of union, to be reported to the General Assembly at Rochester.

THE New York *Times* says, in response to those papers that are rejoicing over the invention of an instrument by which frauds in the whisky revenue are to be rendered impossible, "This thing cannot be done. We should not be surprised if the very instrument in question should be made serviceable in promoting and concealing the very frauds it pretends to prevent."

Base Ball.

If any one, passing within sight of the West Common often and at different times of the day, should imagine that a considerable element of our male population must make their living in playing ball, he will be entirely mistaken, both in the main idea and in all that it implies, except, perhaps, one thing. First, there are some of our most energetic and industrious young men, close attendants on business, lovers of home, who, after the hours of toil, writing, figuring or thought, in office, store or shop, enjoy the exhilaration of a knock and a run in a game of ball on the Common. It brightens them up, it prepares them with a gush of spirits for the evening home circle, as well as sharpens their appetite for the evening meal. One game is all they want. This is sufficient to wind up the machinery, that flagged under eight or ten hours' application, in earnest, to business.

There is another class who, although they do something besides, spend a disproportionate share of their time in playing ball. As a class, these are there all the time, but the individuals come by succession. It may be said of large numbers, that they spend too much time at ball. Neither intellectual nor physical improvement is promoted by prolonging such violent exercise. And the influence on habits of business cannot but be detrimental. The prospects of those who habitually give recreation the precedence of duty, are by no means bright for future manhood.

And, finally, it must be admitted that there is a wonderfully heterogenous convocation of ball players, who may be said to live on the Common, and to make their living there as much as anywhere else—persons of all ages, all colors, all sorts of manners, all styles of dress. As, perhaps, they do as well in this way as they would in any other, we have nothing to say further about them. Our national game we greatly respect. We love to see it well played. But let it be a subordinate, not chief thing; let it be the recreation and not the business of life.

A CALL for a Whig Convention, to meet at Charlottesville, Va., has been put forth. Should it meet, it will prove a novelty, reminding one of days which many will recur to with feelings of pride and regret on account of the degeneracy of the times. It is scarcely probable the proposed meeting will amount to more than a small gatering of men who will proclaim that their only course is to join the Republican ranks.

GENERAL INTELLIGENCE.

Says a New York letter: Rumor is busy with the names of certain well known politicians and speculators in connection with the errand of the Japanese Embassy to Washington—and busy, too, in a way that is anything but creditable to them. The Japanese, it is said, sent three millions of gold to this country, a while ago, to purchase a gunboat and other vessels, but the parties to whom the job was entrusted, it is alleged, did not keep their contract, only one steamer having been sent, and even that was almost worth ess. The strangers come to the United States now (so the story goes) to bring the delinquents to account.

The Dubuque *Herald* says that whole fields of grain in Western Iowa have been stripped of their crops by immense flocks of pigeons. One farmer residing two miles east of Independence had sown three acres of wheat, and was preparing to harrow it in, when the pigeons made their appearance and gobbled up every kernel before he could get it covered. Some fields containing forty acres were absolutely covered with pigeons, and although the sportsmen waged an incessant warfare against them, and killed great numbers, their places were soon supplied with others.

The New Bedford *Mercury* has a letter from an old shipmaster, now residing on the island of Timiru, New Zealand, which represents the soil of the island as wonderfully fertile. One farmer, last year, raised 16,000 bushels of wheat. But the trouble is there is no market.

There is an outcry just now in England about stolen sermons. A clergyman writes to one of the papers that he recently heard a discourse of the late Dr. Arnold's delivered in a London pulpit, and on another occasion had the satisfaction of listening to a published sermon of his own. The incumbent of a comfortable family living the other day began to preach a printed sermon previously read, and discovered, when too late to stop, that it was an affecting farewell address. The reverend gentleman, however, still holds his cure.

Eleanor Hughes, a pauper of Coleford, England, got a coffin from the parish authorities to bury her daughter Eliza in. The coffin was several inches too short, so the son of a Scripture-reader named Price, with the consent of the mother and the assistance of a miner named Page, cut off the legs of the corpse with a hatchet, and hammered the feet out straight, so that the mutilated limbs could be squeezed in by the side of the body. Even then the nose had to be broken before the lid would go on. Price was committed to jail.

A bit of sharp practice has been going on at Hudson, N. Y. A man contracted to purchase a farm. The forfeit was $500. A few weeks subsequent to this transaction a third party came and offered the original owner an advance of $1500 for the farm. The seller "backed water," and paid the forfeit, when purchaser No. 2 didn't want to buy. Several parties have been duped in the same manner within a short time.

The farmers in many parts of Minnesota have sold themselves short of seed-wheat, and county authorities are furnishing seed and taking notes to be paid when the next crop is harvested.

The Right Worthy Grand Lodge of North America, supreme head of the Independent Order of Good Templars, will hold their next annual session in Detroit, commencing about the last week in May. All members of subordinate lodges in good standing, who have taken the two new degrees, will be permitted to visit the R. W. G. L. while in session.

Quite a destructive fire occurred at Wooster, Ohio, Monday morning. It broke out about half-past two o'clock, in a building owned by John France, and occupied by Ingraham & Co. as a dry goods store, and by the Wayne county *Democrat* printing office. The second and third stories were saved without serious damage, but the first floor was completely gutted. Ingraham & Co's loss by damage of fire and water to dry goods about twenty thousand dollars. The *Democrat* sustained a small loss by damage to their stock of paper, files, &c. Insured to the amount of fifteen thousand dollars in the Ætna, Hartford, Lorillard, International, North American and Security. No insurance on the buildings.

Max Strakosch intends to give an operatic season in Chicago, commencing on the 20th instant. The Parepa-Brignoli troupe is to be filled up for that purpose.

The Ironton *Register* says: "Our oldest farmers say they never have seen such prospects for all kinds of fruit as are visible now on every hand. They declare also the same concerning wheat. In some localities it is a foot and a half high, and very thick."

A baby elephant attached to a circus, became frightened near Phœnix, R. I., on Friday, broke away from his keeper and ran into the principal street. He made a raid upon a fruit store, went into a saloon and emptied the contents upon the landlord and customers, and was proceeding to demolish a grocery when he was secured by his keeper.

"A beautiful, intelligent, amiable, fascinating and immensely wealthy" young lady in Fort Wayne is patiently waiting for some young man to marry her. It is stated she wears cheap clothes and works in a milliner's shop.

Two negroes in Richmond were so delighted at the idea of being able to ride in the street cars that they carried their breakfast and dinner with them and remained in one of the cars until night. One of them proposed that they should go after their beds.

Russia has sent twenty-four horses to the Paris Exposition. It is estimated that the number of horses in the empire proper is 19,500,000; in Poland 612,560, in Finland 257,500. The specimens in Paris are many of them superb. Every afternoon they are brought out in front of their stable for exercise and display. Of course they are always surrounded by an admiring crowd. Their grooms all wear the Russian dress of top boots and long blouse or frock, and they generally excite as much attention as the beasts they have under their care. These latter are very spirited and are kept under control with difficulty. They are of very symmetrical form, full of fire and spirit and all show the results of a mixture of Arabian blood.

The Society for the Prevention of Cruelty to Animals, in New York, has expended the past year $5,047 and received an income of $7,474. B. D. Hicks, Esq., has recently given a donation of $60,000, and Henry Bergh, Esq., of $7,000 annually. The latter is re-elected President of the Society.

While a heavy ship laden with corn was lately being discharged in the port of Antwerp, an immense swarm of rats of enormous size rushed from the hold and invaded the neighboring vessels, warehouses and habitations. The workmen were obliged to retreat to give passage to these unwelcome strangers.

An order from Marshal Niel, French Minister of War, fixes the sum of 3,000 francs ($600) as the price to be paid by the conscripts of 1866 who are liable to be enrolled this year, for exemption from military service. The price last year was 2,100 francs. There ought to be a good opening for a Yankee substitute broker.

The New York *Sun* has ascertained that now that the annual moving crisis is past, and there remain in the city an unusually large number of empty houses, many landlords are astonished to find themselves out-done by the resolution of former tenants not to submit to extortion and injustice.

It is reported that a system of slavery exists on the Society Islands, under the auspices of the French Government, unequalled in barbarity by any former plantation system down South. The victims are Chinese coolies and natives of the Pacific Islands.

CONSUMPTION CURABLE.

Its icy hand falls alike upon youthful innocence and hoary-headed age. Some of the prominent symptoms are Cough, Expectorant, Shortness of Breath, Irritation about the Lungs and Chest, darting Pains in the Side and Back, Emaciation, and a general negative condition of the whole system.

—A few months since, Vanderbilt played "a corner" on Brother Drew, costing the latter nearly a million of dollars. It is said that Brother Drew has Vanderbilt in "a corner," in such a fix that it will cost him three millions of dollars to get back to the place of beginning.

—Georgetown, District of Columbia, has been enlivened by the wedding of Dr. Peters to Miss Kennon, a grand-daughter of Washington's adopted daughter, who figures in pictures at Mount Vernon as one of the Custis children.

—The dry goods dealers at New York have not all succeeded in their haste to be rich, during the last year, if their returns of income be correct. Henry B. Claflin, whose income in 1865 was half a million, returns $25 profit from his business in 1866, and another large house reports 80 cents.

—The people of the South are said to take a great liking to Senator Wilson. One old mother said in her enthusiasm, "He is Massa Linkum's son sure." A freedman, after hearing him speak, said: "He need nebber lift his hand to do another day's work while I had a dollar!" His black auditors express their agreement while he speaks by shouting "Glory to God," and "Amen," and the meetings are often closed with the doxology.

—The *Court Journal* notices as one of the saddest "signs of the times" the undoubted spread of Mormonism in many parts of England and Wales. The Son of Brigham Young himself is now in London on a proselyting expedition, and has been holding forth to large audiences in the tabernacle of the faithful. It is indeed startling to hear that many hundreds of women leave England every year for Salt Lake city, but it is unfortunately true beyond all doubt.

—A member of the Literary Association of Macon, Ga., recently delivered an address before the Society of the Genius of Misfortune. It closes thus: "The soft rays of a June moon or the mild beams of its starry attendants tranquilly reposing upon the placid bosom of a silvery lake, or playing hide and seek upon the dimpled stream, wandering quietly to its ocean home—is lovely. But the wild glare of the lightning leaping madly from its cloud retreat and flashing ghastly over the storm-lashed wave—is grand."

—A minister of a little church in London has assembled the thieves and tramps of Golden lane, Barbican, and after feeding them with tea and cake, which the report says "disappeared with amazing rapidity," has instructed them in the early persecution of their church. Speeches were afterwards delivered by a bricklayer's laborer, a bird-fancier, and a thief. This movement seems a very strange one, but it is undoubtedly a step in the right directi n.

MT. VERNON GROVE.

A MAGNIFICENT COUNTRY SEAT, situated on the Ohio river, four miles from the city, and a few rods from Neville Station, on the Pittsburgh, Fort Wayne and Chicago Railroad, in a pleasant neighborhood, surrounded by beautiful country houses, near to New Brighton Turnpike, and within a short distance of Postoffice, Store, School House and handsome Church.

This very desirable Grove contains TWENTY-SEVEN ACRES, (27) with a front of sixteen hundred feet on the Ohio river, and Fort Wayne and Chicago Railroad, and the handsome forest trees being a proper distance from each other, and having a protection from the cold northwestern winds in winter by the adjoining property, makes it both a pleasant retreat in summer, and a warm location for a home in winter. The ground is elevated sufficiently to prevent annoyance from the railroad, and commands a grand view of the Ohio river, and surrounding country from Manchester to the foot of Neville Island. It is watered by several never-failing springs of good water, and the forest trees are chiefly fine large oaks, maple, with a few chestnut and hickory.

Those desiring a rare and beautiful location for a country home, would do well to visit Mount Vernon Grove. Belonging to this property is a valuable Eddy and close by the railroad there is sufficient stone for any building purposes. It is a splendid site for a shipping yard for coal, or for manufacturing purposes. For further particulars, inquire of

W. H. Latshaw; Clerk, Jacob Anderson; Directors, John Harper, C. W. Batchelor, J. Willis Dalzell, and George Shiras, Jr.

PAINFUL ACCIDENT.—Mr. Joseph E. Robinson, of Allegheny, met with a painful accident on Tuesday evening. He was jumping off the platform of one of the Rebecca street cars, on Federal street, Allegheny, when he slipped and fell, the wheel of the car passing over his foot, crushing it terribly. He was removed to his residence on Ohio street, Fourth Ward, where his injuries were attended to by Dr. Rhoads.

ATTEMPTED BURGLARY.—Yesterday morning, about one o'clock, an attempt was made to burglariously enter the office of Anderson, Cook & Co.'s Steel Works, on Ross street. A young man who slept in the office heard a man endeavoring to pick the lock of the door, and, upon arousing, the burglar fled. He hastily opened the door and saw the burglar running down towards the river. He eluded pursuit and escaped arrest.

PRISONER ESCAPED.—A prisoner named W. P. Riley, while being brought to the Penitentiary by Sheriff Gray, of Venango county, on the steamer Ida Rees No. 2, jumped off the boat near Tarentum, about one o'clock on Tuesday morning, and was not seen or heard of afterwards. He had heavy hobbles on his feet at the time, and it is probable that he is drowned. It is possible, however, that he is alive, and Sheriff Gray has offered $50 for his arrest.

M.; Saturday, 11th inst., for Ohio township, and Sewickley, at Sewickley Church, at six o'clock, P. M.

Interesting Incident.

Last evening at the close of the services at the First Methodist Church, Fifth street, a committee of gentlemen waited on the pastor, Rev. Alexander Clark, and through E. E. Rinehart, Esq., presented him with a splendid gold watch. The inscription, simply but expressively, tells it all. It is as follows: "*To our Pastor as a token of the affectionate regard of a few of his friends: Pittsburgh, May 8th, 1867.*"

The incident was a pleasant one in every respect, but totally unexpected by the worthy recipient of the gift; indeed, elegant as it was, it but faintly spoke the feelings of those whose privilege it was to share in the presentation. Mr. Clark, by his zealous labors, has won all hearts in his largely increased and still increasing congregation; and many there are outside of it who will share in the feelings which prompted this manifestation of regard.

The deponent alleges that he bought a horse from the defendant in the horse market, in this city, for the sum of $34 50, and which Andrew represented to be in sound condition. After a fair trial, the animal was found to be worthless. A warrant for the defendant's arrest was issued and placed in an officer's hands.

Public Amusements.

OPERA HOUSE.—There was another crowded audience in the Opera House last evening, to witness the beauties of the famous "Black Crook." The play passed off very smoothly, and was a great improvement on its first representation. The audience was enthusiastic in its applause at the beautiful scenery and elegant costumes paraded before it, and judging from the desire manifested to see it, a lengthy run of the play is anticipated. It will be repeated to-night.

ACADEMY OF MUSIC.—Owing to the impossibility of Mr. Murdoch's reaching here in season to commence Monday evening, the opening of the Academy of Music will not take place until Wednesday evening next, upon which occasion the distinguished actor will appear as "Alfred Evelyn," in the play entitled "Money." Managers Hall & Burke prefer opening their beautiful theatre with some distinction, and wisely concluded to defer it until Mr. Murdoch's arrival, which C. D. Hess, Esq., telegraphs will positively be in time for his appearance Wednesday evening.

THEATRE.—A change of bill is announced at this favorite place of amusement this evening. The Charley White Combination will appear in an original selection of songs, dances and other acts of minstrelsy, the entertainment concluding with the "Charge of the Petticoat Brigade."

VARIETIES.—Signorita Lopez, and her wonderful pupils, will give several of their beautiful aerobatic feats to-night, and Mlle. Laurent and the Boquet of Beauty will execute a number of fascinating dances. The Ethiopian Bureau will also take part in the performances.

MASONIC HALL.—A SPLENDID PRESENT FOR SOMEBODY.—The Apocalypse Exhibition and Visions of St. John will remain at Masonic Hall just three days longer. Exhibitions will be given every afternoon and every night these last three days. About six hundred handsome presents will be given away to the audience at these exhibitions, among which is a splendid seven octave Chickering Piano, valued at five hundred dollars. These presents are given away to advertise the entertainment, and whoever receives the Piano must contract to tell at least one hundred persons about the Apocalypse exhibition and its merits. In fact, it will be left as a memento among the people by which to remember this Work of Art, as we learn a return trip will be made in September next. Go and see the Visions of St. John, and that without fail.

(Or any of them in the absence of the others at the meeting for organization) to act in Allegheny County, Pennsylvania. The auxiliary associations are authorized to collect and receive funds in aid of the Southern Famine Relief Fund of Philadelphia. The original appointees have power to add to their number, to fill vacancies, to substitute suitable persons for those prevented from serving, and generally to adopt such measures for promptly carrying out the objects of their Association as may seem expedient.

OPERA HOUSE SHOE STORE.—The second large supply of Spring and Summer Boots and Shoes has just been received at the popular Opera House Shoe Emporium, No. 60 Fifth street, and is the finest ever offered here, embracing many novelties in the shoe line, prominent among which is the Sherman Tie, the handsomest and most comfortable walking shoe ever made. The supply includes a full line of Ladies' Glove Kid, French Morocco, Glove Calf, Goat and Lasting Congress Gaiters, Balmorals and Bootees. The supply of Childrens' Shoes is extensive, and embraces every variety and style, made in the most durable and neatest manner. Heads of families will not find so excellent an assortment of childrens' wear anywhere else in the city, and they will please make a note of the fact. The assortment of calf boots is the finest in the city, while the stock of mens' shoes was never so complete, embracing every desirable style, all that is neat, good and comfortable, and that will give satisfaction. The experienced buyer of the celebrated Opera House Shoe Store has just returned from the East, where he happened to be just at the time the market was so unsettled, and was consequently enabled to buy goods remarkably cheap. Of course, as this store has made its reputation by selling cheap, aided by extensive and judicious advertising, it will adhere to its original custom, and give its customers the benefits of its cheap purchases. We are assured they will sell cheaper than ever. The goods are from some of the most prominent and prosperous manufactories in the country, such as Burts,' of New York, who has sent samples to the Paris Exposition; L. Dunbar & Co., Littlefield, Jerome Ingalls, James Tucker & Co., and many others too numerous to mention here. In brief, the Opera House Shoe Store has the best goods made, sell at the very lowest prices and far beyond competition, warrant every pair sold, and will repair them free if they prove unsatisfactorily, and offer so many other advantages that it is no wonder so large a business is transacted by this house. Call and examine the goods before purchasing elsewhere.

WHO IS RESPONSIBLE?—Victim of debility, who is responsible for your feebleness? Not yourself you will say, for you've done all you could to cure it. That's a mistake on your part. You have n't tried HOSTETTER'S BITTERS. Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It's easy to see from your condition that You haven't tried HOSTETTER'S BITTERS.

Billious sufferer, it is not your fault, you think, that your system grows worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought around for all that.

Why haven't you tried HOSTETTER'S BITTERS?

Friend, on whom Fever and Ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried HOSTETTER'S BITTERS.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried HOSTETTER'S BITTERS?

For all the above-named complaints, the Bitters are absolute specifics.

Those who have not been threatened with premature grey hair and baldness, can hardly appreciate the advantages of such a discovery; yet we all know how unsightly and distressing such misfortunes are, and are equally liable to them. FINANCE AND TRADE.

WEDNESDAY EVENING, May 8, 1867.

The advance in the gold premium at a time when grave deliberations by the London Peace Congress, affecting the peace of Europe, are in progress causes an uneasiness in financial and commercial circles. So far as the interests of this country are concerned, it matters but little what turn these proceedings may take. If unfavorable to peace we would profit, and *vice versa* our great interests would become more settled, and values would gravitate to a more solid basis.

—A new bank with a full paid up capital has commenced business in our city during the past week, under the corporate name of "Western Savings Bank." It was chartered in 1866 as a bank of savings as well as of discount and deposit. Our cotemporary, the *Gazette*, gives the following notice which we can fully endorse: "The community is interested in knowing under what circumstances, with what objects, and under whose guardianship and management its public institutions are commenced: in order that a right judgment may be formed of its claims to the confidence of the people. No similar enterprise among the many that have earned a high position among us has ever been started under better auspices than this Western Savings Bank. Thompson Bell, Esq., than whom no man in the city stands higher for rectitude and probity, or for circumspection, intelligence and far-seeing sagacity, and to whom may be ascribed the paternity of this Bank, has associated with him, by a careful distribution of the stock, a number of our most judicious and discreet citizens, known for their wealth, intelligence and prudence. The combination of an ample capital for the security of depositors, and of well known and tried integrity in the management, make up the essentials of just such a Savings Bank as will commend itself to the implicit confidence of every class of depositors, whether the merchant, manufacturer and man of business, or the laboring man and artizan, as not merely a convenient, but entirely *safe* place, where the earnings or the savings of the poor will be safely kept and constantly increase by accumulation of interest until needed for actual use. Such institutions, where they have been established and judiciously managed, have invariably resulted in great benefit and blessings to the industrious poor. In the Western Savings Bank the depositors will have for security, in addition to the deposits, the advantage of a large paid up capital.

In order that the Institution should possess an eligible, convenient and prominent location, Mr. Bell has purchased the stone edifice on Fourth street, near Market, known as Burke's building, which is being cleansed and renovated, and will again, as formerly, be one of the most attractive buildings in the city. Vaults of great capacity and strength, and high walls in the rear are being added, so that every needful provision is made for the permanent accommodation of the large business which an institution so admirably constituted and managed as this cannot fail to secure.

For the names of officers, directors, &c., we refer to the card of the bank in our advertising columns.

—The principal railroad stocks were in fair demand, though generally the miscellaneous list was drooping. The advance of the past two weeks has failed to draw the public into the market, the prevailing idea outside apparently being that the movement is in opposition to the prospective value of stocks. On every improvement in the tone of the market there is a rush to sell, which indicates a lack of confidence in any further advance in prices.

—The daily exchange of National securities and the operations of the tax and excise laws require enormous amounts of currency as compared with former years. Commercial exchanges of themselves require in the more populous parts of the country relatively less actual currency for their adjustment. But we must, whilst perceiving this, also comprehend the fact that the area of country over which our country extends is enlarging rapidly and making impossible, under any circumstances, a reduction of the currency of the country to one somewhere near the level it had before the war. It is fortunate that in any contemplation of a return to specie payments that may be made, we have the assurance that the production of the precious metals is on very nearly the same increasing ratio as will be the demand for it as a basis for the currency of the country, when that basis may be again adopted.

—The statement of the averages of the Philadelphia banks for the past week shows an increase in every item except of that due to banks, in which there is a small decrease. The loans and deposits have increased over a million each, and there has also been an increase of about half a million in legal tenders and specie. The capital shows an increase of $287,000. The business of the week has been large. The clearings show an increase of $7,171,100, and the balances of $307,657.

—The statement of the New York associated banks for the week reflects the present tendency of capital to concentrate at this center. The deposits show the large increase of $8,054,731, which is mainly attributable to the drain of currency from the interior. The legal tender notes have increased $2,667,056 and the specie $2,497,873. The loans have been swelled $3,140,177, owing probably to the purchase of Government securities by the banks as much as the augmented demand from the Stock Exchange. The circulation has decreased $29,538. The total of the present and previous statements stand thus:

	April 27.	May 4.
Loans	$247,737,381	$250,877,558
Specie	7,494,304	9,992,177

—Speculators confident that cheap money alone will stimulate an advance will do well to examine the price of leading English railways, and of leading French speculative corporations before making large engagements. With protracted cheap money their roads and corporations show a decrease in price similar to that noticed in the fancies of Wall street.

MILWAUKEE FLOUR AND WHEAT MARKET.

Special Correspondence of Pittsburgh Commercial.

MILWAUKEE, WIS., May 4, 1867.

Another week of uneasy, unsettled transactions in the wheat market, and a complete inactivity in flour has taken the life out of business, and but for a better movement in the coarser grains, which have claimed more attention and advanced figures, we should indeed be upon our "beam end." At this date wheat is ruling better than for a few days preceding, and is reacting from a depression produced from the throwing upon the market a few thousand bushels, which, in our present state, is immediately felt. Such is our unstable condition, growing out of the extreme scarcity of wheat. We have, though, as a sort of set off to our want of permanency, a way of recovering what we have lost, and that is at present, "the situation." Flour has not changed in disposition, and the figures given in the quotations following are held firmly, without any disposition upon the part of holders to yield in favor of buyers. All grades generally scarce.

The Secretary of the Chamber of Commerce reports the following stock of grain in warehouses the first of the present month, as also loss or gain since April 1st:

	Wheat.	Oats.	Corn.	Rye.
In store May 1	177,812	105,432	43,457	13,486
In store April 1	625,429	95,339	34,988	24,225

As to receipts, the expectations have been, that during the past week our receipts would have been larger, but that expectation has been disappointed, and we have again fallen much below shipments. Receipts of wheat during week, 16,152 bushels; shipments 44,606 bushels, making the excess in favor of shipments. Flour closed at about the following figures: City double extra, $13 50@14 50; country double extra, $13 50@14 00; extras, $12 75@13. Oats, 72c for No. 1, 70c for No. 2—advancing. Corn, $1 12½ for old, $1 05 for new—steady. Rye, $1 55 for No. 1—advancing. Wheat unsettled, though upward, at $2 96 for No. 1, $2 83 for No. 2, and $2 68 for No. 3. Provisions quiet, nothing doing, and prices nominal.

Very respectfully,

MOWER, CHURCH & BELL.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
WEDNESDAY EVENING, May 8, 1867.

Trade, generally, continues inactive. There is very little whatever doing, excepting a contracted business in such articles as are actually necessary to supply the wants of consumers, and these wants continue to be limited to the smallest amounts. Flour continues in request at the advanced prices, and the demand is sufficient to keep the market rid of any surplus stock, as the receipts are very small. Coffee and Sugar are held firmly at quotations. Groceries are now about as low in price (gold) as previous to the outbreaking of the rebellion.

The receipts of leading articles of produce, per river and railroad, since our last were as follows: Flour, 850 bbls; cheese, 21 bxs; corn, 1,481 sks; barley, 41 sks; rye, 160 sks; oats, 424 sks, and butter 31 pkgs.

We quote as follows, which are the wholesale prices, unless otherwise stated:

APPLES—Choice apples are getting scarce. We quote those in good order selling from store at $5 00@6 00 ₱ bbl. Inferior qualities are nominal; sales of 50 bbls at $3 00 ₱ bbl reported.

BUTTER—Prices, under good receipts of new, continue to droop. Sales to-day reported from store of 1,100 ℔s choice new yellow at 25c ₱ ℔. Excellent butter was retailed by dealers at 30c ₱ ℔.

BACON, LARD, &c.—Market active and firm. We quote shoulders 9½ to 10c; sides 11¼ to 11½c; hams, 14c. S. C. hams, 15½c; Mess Pork, $23 50 ₱ bbl, and Lard 12@13½c ₱ ℔. These are packers' sales. Sales of country meat were made at 9c for shoulders; 11c for clear sides; 13c for hams, and 1,200 ℔s lard at 12c ₱ ℔.

EGGS—The surplus stock, noted for some time back as having been on the Market, is nearly cleared out, and prices are at a stand still, with an upward tendency. We note sales of 25 bbls at 15c ₱ dozen.

BEANS—Prime Navy Beans are quoted from store at $3 ₱ bushel.

DRIED FRUITS—From store we quote prime Apples selling at 9@10c ₱ ℔, and Peaches at 15c ₱ ℔.

FLOUR—The flour market has been much excited and still continues so, but relatively cheaper than the Chicago prices. Good brands are selling by the dray load cheaper than they can be bought for in Chicago and brought here by the car load. Large dealers find it difficult to keep up with the advance, so long as there is stock in the hands of small dealers. We quote good brands, to-day, selling at $14 75 in small lots; higher prices are anticipated.

RYE FLOUR—We quote from store at $9 50@10 00 ₱ barrel.

BUCK WHEAT FLOUR—There is very little doing. We quote from store at $3 75 ₱ hundred.

CORN MEAL—Prices have advanced. Reported sales at $1 20@1 25 ₱ bush.

GRAINS—Prices of wheat are entirely nominal, as there is none coming to market of any consequence.

OATS—There has been no change since our last. Sales by the car load, on the track were made at 65c ₱ bush.

CORN—The market continues firm at $1 17@1 12 ₱ bush, from store.

RYE—Receipts light. Sales reported from store at $1 60@1 65 ₱ bush.

HAY—Prices lower. Sales of prime timothy were made at the scales at $24@26 ₱ ton.

ONIONS—There is only a scant supply on the market. We quote from store at $3 75@4 00 ₱ bbl.

SEED—Market for cloverseed dull at $10 50 ₱ bush. Timothy seed dull at $2 75 ₱ bush. Flax seed is quoted worth $2 80@3 00 ₱ bush, from store.

SORGHUM—Dull at 50c ₱ gallon.

POTATOES—Choice, from store, are quoted at $2 75@3 00 ₱ bbl.

Groceries.

The advance in gold to 138 has stiffened prices, and Sugar and Coffee are held firmly at our quotations. Bi Carb. Soda has declined. New Orleans Molasses and sugar scarce but without any change in prices. Deducting the duty, foreign groceries are about as low in price (gold) as they were immediately preceding the war.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL,
THURSDAY, May 9, 1867.

Business yesterday was more active. The sales were larger than for some days past, amounting in the aggregate to 8,400 barrels of Crude. Prices however have undergone no change. The rates that were current some days since, would answer on the present occasion. We quote as follows: 6½@7c for bulk, with the usual advance, barrels included. Among the receipts since our last were 10,407 barrels. Among the sales of Crude we note the following: 1,500 barrels bulk 7c; 400 barrels do bulk 7c; 2,000 barrels do 7c; 1,000 barrels do 7c; 1,200 barrels do 7c; 2,000 barrels do 6¾c, and 300 barrels do, packages returned, 10½c.

REFINED OIL—The sales as reported reach 7,000 barrels, in the following order and conditions: 1,500 barrels bonded, standard white, Philadelphia delivery, from June 1st to June 15th, 27c; 500 barrels do, standard white, July B. O., 38c; sales 500 barrels do, June B. LIVE STOCK MARKETS.

CINCINNATI.

At the Union stock yards the receipts of beef cattle for the week ending May 6, has been more liberal than the past two weeks, but the market continued quite steady at the last quotation, except on the lower grades of cattle, upon which there was a decline of 50c per hundred established to-day. LUMBER MARKETS.

CHICAGO.

There is an active demand for good to choice cargoes, and the few that arrive, says the *Tribune*, of Tuesday, were soon picked up at full figures. The inquiries for common qualities continues good, and dealers are firm in their demands at $17 00@19 50. There was a fair movement in shingles, and we note sales of 4 cars sound "A's" at $4 50, on Northwestern track. Trades in the yards was moderately active, and with a slight improvement in the demand a better feeling prevailed. A large number of yard men who left their respective yards on Friday and Saturday, returned to work this morning, expressing their willingness to work under the ten hour system. Cargo sales include the following: Schooner Monsoon, from Muskegon, with 113 m feet, ⅓ strips, balance boards, at $20 50; schooner Abigail, from Muskegon, with 120 m feet, 30 ₱ cent. strips, balance mixed at $20; schooner Minnie Slawson, from De Pere, with 240 m feet, coarse mixed at $16 75, and 125 m lath at $4 25; bark S. B. Pomeroy, from Oconto, with 300 m feet, mill run at $22, and 90 m lath at $4 25; schooner Cascade, from Oconto, 185 m feet boards end strips at $22; schooner Blue Bell, from Grand Haven, with 64 m feet common mixed at $18, and 40 m lath at $4 25; scow Commerce, from Holland, with 55 cords shingle bolts at $11 75; schooner Vermont, from Kalamazoo, with 70 m feet, ⅓ strips, balance mixed, at $19; schooner Denmark, from Grand river with 100 m feet mixed, mill run at $18, and 256 m lath at $4 25.

CINCINNATI.—The trade at the yards is good, without being particularly active, or changed in price. River rafts are being offered, but prices are not yet adjusted so as to bring the local dealers and the raftsmen together. One sale at $28 is said to have been made. That price, however, is regarded as too high by $3@3, to admit of free trading.

CINCINNATI MARKETS.

The *Commercial*, of Tuesday, quotes as follows:—

Butter—There has been a good local demand for prime to choice grades of yellow, but white is not wanted even when fresh and sweet, and it will hardly bring over Grease prices. Yellow ranges from 27@30c for the better grades. There is but little demand for shipment.

Coal—The market has been rather firm. There is still a moderate amount at the river unsold, but holders are not willing to concede any in prices. The prices afloat are 9c for Ohio river, and 11c for Youghiogheny, and from yards 12@14c for the former, and 16@18c for the latter.

Dried Fruit—The market is still inactive, and prices without variation: apples ranging at 7@9c; peaches at 13@15c, and 16@18c for quarters and halves.

Eggs—The market has been rather dull all the week, at 15c ₱ dozen, shippers' count, for prime.

Grease—A dull market, but prices are unchanged. We quote brown at 8½@9c; yellow at 9¼@9½c, and white at 9½@10½c.

Oils—The demand is limited for Linseed. It is held at $1 46@1 47. Occasionally small sales are made at these figures. Lard remains dull at $1 10 for extra, and $1@1 05 for No. 1. Petroleum is dull at 40@42c ₱ gallon for refined in bond.

Seed—No demand for clover or timothy, and prices nominal. The season is over. Flax dull and prices lower, closing at $2 60@2 70.

Tallow—The market is steady at 10½c for prime rendered.

Whisky—But little has been done during the week. It has been held at 26c in bond, with occasional sales.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather yesterday was cool but pleasant. The Monongahela marks indicated ten feet water and rising. The Allegheny eleven feet. Trade on the landing was dull. Freights were very scarce. Boats had to wait some time before they could procure a trip. Our last reports from Oil City report a rise at headwaters. The fine packet Armenia being detained, will positively leave this day for Cairo and St. Louis. The Leni Leoti left yesterday on time for St. Louis with a good trip. The Argosy, for Cincinnati, had a good trip. The Belle, a fleet Allegheny packet, is announced for Cincinnati. The steamers Bayard and Ingomar will be found at the landing this day. They will have dispatch, the former for Parkersburg, the latter for Matamora. A number of boats are due and may arrive at any hour. The river to Oil City is in good navigable order.

THE Cumberland was falling on Sunday with eight feet water on the Shoals.

THE steamer America passed Evansville on the 6th, on her way to Tennessee river.

THE steamer Glendale left Cincinnati for this port on Tuesday.

THE packet Grey Eagle left yesterday for Parkersburg with a good trip.

THE steamer Argosy left yesterday for Cincinnati with a good trip. This boat is a large favorite with passengers and shippers, and deservedly so.

BOATS IN PORT.—Ida Rees, Delaware, Maggie Hays, Argosy, Kate Robinson, Gray Eagle, Gallatin, Fayette, Elizabeth.

THE steamer P. W. Strader passed Cairo from New Orleans—four days and nine hours out from New Orleans.

THE fine side-wheel packet Ingomar, Capt. Kemple, leaves this day at 11 A. M. for Parkersburg and intermediate ports.

FAST TIME.—The Robert E. Lee, on her last upward trip, made the run from Memphis to Cairo in sixteen hours. We believe this is the fastest time on record.

THE fine side-wheel passenger steamer Bayard, Capt. Moore, leaves this day at noon for Parkersburg and intermediate ports. To persons going that way a fine opportunity is presented.

CARPENTER DROWNED.—Henry Von Horn, carpenter on the steamer Enterprise, fell overboard from the wheel, at Little Rock, and was drowned. He leaves a family in St. Louis.

THE fine packet Ida Rees, Captain Joseph Brown, leaves on Saturday for Cincinnati and Louisville. This boat has just been fitted up in a superior manner, and offers excellent accommodations to passengers and shippers.

THE first class passenger steamer Armenia, Capt. H. C. McCallum, is announced for Cairo and Saint Louis. This boat has unsurpassed accommodations and is in charge of officers that would make a less worthy boat popular.

CAPT. ANAWALT is again on hand for another barge trip to St. Louis. The handsome model barges Dove and Swan, are moored at the foot of Wood st. These boats will have dispatch. We take pleasure in saying a good word for Captain John and the Wild Duck.

SPECIAL NOTICE.—The punctual passenger steamer Armenia, Capt. McCallum, is announced for Cairo and Saint Louis this day. Persons who have traveled on this steamer speak in flattering terms of her appointments. Call early, and Mac., Jr., will furnish you with a first-class state room.

STEAMER ABEONA, OMAHA, April 30.—We arrived here this morning, after a tedious trip from St. Louis, being thirteen and a half days out, running against the hardest river I ever saw. We have been forty-eight hours coming the last fifty miles, on account of the wind, but we are getting along as well as any of the balance of the mountain boats. The Missouri river is falling very fast.

JEFFERSONVILLE, Ind., May 6, 7 P. M.—EDS. COM.: There is eight feet in the pass over the falls, and six feet six inches over the rocks for towboats. Clear and cool. Wind north. Mercury, fifty-six degrees. The Silver Cloud and Glasgow, Merwin and Sherman passed down, all heavily laden. The Westmoreland, Wild Hoosier, and William Brown passed up. The Raven and Diamond and The Louisiana passed up. The Lows of salt and coal. Government ambulance for St. Louis. Sherman received so D. M. DRYDEN, Falls Pilot.

MEMPHIS.—The *Avalanche* has the following in reference to the fearful storms that prevailed in the vicinity, last Monday and Tuesday: The officers of the Dan. Able report the storm of Tuesday night truly terrific at Milliken's Bend. Large trees were twisted from their roots. Houses were blown down, and the people were terror-stricken at the severity of the storm. One noticeable incident was that of a house being lifted, with its inmates, by the wind, carried a hundred yards, and landed safely, not an accident occurring to the family inhabiting it. The officers of the boat say it was the heaviest storm they ever experienced.

PROPOSALS.

WESTERN RIVER IMPROVEMENTS.—Sealed Proposals will be received at the Office of the Superintending Engineer of the Western River Improvement, &c., No. 4, Public Landing, Cincinnati, Ohio, until WEDNESDAY, the 22d of May, 1867, for removing obstructions to the navigation, such as snags, wrecks, sunken barges, logs, boats, or the like, from the Missouri river, or from the Arkansas river, separate proposals being required, naming the river in which the bidder proposes to work; the intention being to have one boat, &c., equipped, as below named, on each river.

Bidders will specify the price per day for each day's work for which they will agree to furnish every thing necessary to do the work under the superintendence of a person to be appointed by the said Engineer; said price to cover the furnishing of a light draught steamer, one strongly decked flat, one crane and crane boat, and the necessary screws, chains, ropes, levers, saws, axes and requisite utensils, fixtures, &c., suitable for such work, and including the pay and expenses of Captain, Pilot, Steam Engineer and Crew, and ten men for running the steamer and doing the work. All expenses to be paid and all risks borne by the party proposing, it being understood that the Government will be responsible for the payment of nothing more than the sum per day that may be agreed upon.

The right is reserved to reject any and all bids, if it may be deemed to the interest of the Government to do so.

For more particular information apply, by letter or otherwise, at the Office above named, in Cincinnati, Ohio, where may be obtained the printed forms for making bids and naming the sureties, a close conformity to which forms must be observed to insure attention to the bids.

SOUTHWEST PACIFIC RAILROAD Co.

SEVEN PER CENT.

First Mortgage Bonds

$2,000,000 in Coupon Bonds of $1,000 Each,

TWENTY YEARS TO RUN,

Principal and Interest Guaranteed by the Atlantic and Pacific Railroad Company,

And secured by property valued at $7,500,000 consisting of their completed road to the Gasconade river, 127 miles from St. Louis, and 350,000 Acres of Rich Agricultural and Mineral Lands on its line.

This road passes through a country rich in agricultural resources and in minerals, and particularly in iron and lead; the iron ore of the Southwest Missouri being the purest known, ranging from 70 to 90 per cent. of pure iron. Rich and extensive deposits of specular oxide and red and brown hematite abound all along the line of the road and on the company's lands in greater quantities than the total deposit of any State in the Union, and a large business is now being inaugurated in freighting this ore for the Eastern furnaces, the vast excess in value of this over other ores paying the difference in cost of transportation.

By a provision of the mortgage, when lands are sold to the amount of $40,000, it is to constitute a fund for the redemption of a like amount of bonds, which are also received by the Company at PAR in payment for land. This land is now being disposed of at prices from $5 to $40 per acre. The climate is remarkably salubrious, and the mean temperature the same as in Virginia, the winter being short and mild. For particulars respecting lands, address Colonel A. ...BERT, Land Agent, at St. Louis, Mo.

The Company has been recently merged with the Atlantic and Pacific Railroad Company, having a land grant of 55,000,000 of acres, thereby securing to the fullest to the security of these bonds, which will form a direct and continuous railway from St. Louis to San Francisco, much shorter and of more easier gradients than any other route.

Of the present issue of bonds, a limited amount is now offered for sale at the low rate of 80 per cent., subject to advance at the option of the Company.

For further particulars apply to

WARD & CO., Bankers,

NO. 54 WALL ST., NEW YORK.

Or to the undersigned, who are the authorized Agents for the sale of the above Bonds in this city, and having made a thorough examination into their merits, we would respectfully recommend them to our friends and capitalists as a safe, reliable and good paying investment.
